

## Post Office 10-year plan proposed by Alan DeJoy

May 23, 2021

Please make the Postal Service whole again. Restore all the sorting machines that were removed and inactivated.

Keep all of the current services and Post Offices.

I rely on the Post Office for a lot of things including the receipt and delivery of my voter information and my ballot. This is a necessary service in our county to keep our democracy. Removing or delaying the delivery of mail will make our country fail as a democracy.

Every country in the world should have a reliable post office, don't make our country a third world nation.

Dorothy Baughman
